Hancock County Seeking Public Comment on Projects

Hancock County, Ohio (April 8, 2024) – The Office of the Hancock County Engineer, acting on the behalf of the Hancock County Commissioners, and in compliance with the National Environmental Policy Act (NEPA) and Executive Order 11988, is seeking public comments regarding the following proposed project:

HAN–CR 180-3.67 Bridge Replacement (PID 117992)

The Hancock County Engineer is proposing a bridge replacement project on Hancock County Road 180 over Lye Creek, approximately 300 feet north of the State Route 37. Construction activities will result in the temporary closure of County Road 180. Vehicular through traffic will be detoured temporarily. Access for local traffic to all properties will be maintained throughout construction.

Construction is anticipated in Spring of 2026.

Work at this location will occur in the regulated floodplain for Lye Creek. Impacts to the floodplain are anticipated to be minor and result in no rise in localized flood levels. A statement of findings detailing the results of the final floodplain analysis will be made available on the Hancock County Engineer's website:

<https://www.co.hancock.oh.us/government-services/engineer>

Written comments regarding this project may be sent to: Hancock County Engineer, Attn: Doug Cade, 1900 Lima Avenue, Findlay, Ohio 45840; or engineer@co.hancock.oh.us

Please provide comments within 15 days from the day this was published. Please be sure to include the above project name as well as contact information. Comments without contact information cannot receive a response.

Respectfully,

Douglas E. Cade, PE, PS
County Engineer
