Dear Township Trustees / Fiscal Officers/ Mayors / Village Administrators:

**Please share this at your Township / Village Council Meeting.**

It is that time of year that the County Engineer's office is putting together the **2024 Paving, Chip-Seal, Widening and Pavement Striping** contracts. (This is outside the Issue 2 OPWC projects that you submitted in August 2023)

**Your Township / Village will be responsible for 100% of the Cost.**

***For your planning purposes in 2024..... (This will change when all the projects come in, so it is for planning not exact.)***

- *Road Widening - \$12.42 per lineal foot for 2 feet width (This is per each side of the road)*
- *Pavement resurfacing - \$1.05 per square foot (Includes Full Width Milling)*
  - *For small quantities or partial Milling is a minimum \$9,500.*
- *Pavement resurfacing - \$0.94 per square foot (Does not include Pavement Striping)*
- *Chip Seal w/ Fog Seal - \$0.18 per square foot (This program is becoming so small that it may be better to get a direct quote from a contractor for a better price especially with the new bid threshold of \$75,000)*

Please return this to **the County Engineers Office** on or **before January 1<sup>st</sup>** to be included in the program. Resolutions and Fiscal Officer Certifications will be sent out the 1<sup>st</sup> week of January.

Thank you,

Douglas E. Cade, PE, PS  
County Engineer
