## **Hancock County Community Health Surveys Begin This Week**

**Hancock County, Ohio – July 25, 2017** – This week, Hancock Public Health will begin its community nutrition & physical activities survey of Hancock County residents as part of a state-wide initiative to improve nutrition and physical activity opportunities within communities. Hancock Public Health was granted funding to help identify the gaps to access healthy foods and physical activity opportunities within Hancock County. Hancock Public Health is working closely with the Hospital Council of NW Ohio to conduct the survey. Until August 18, 2017, Hancock County residents will be asked to participate in an online survey to provide their feedback about their community.

The anonymous survey asks participants to answer questions about access to healthy foods and their opinion about their community's physical activity opportunities. Results from this survey, will be compiled into a report and reviewed by the Hancock County Obesity and Diabetes Task Force to then come up with strategies to help better the overall health and well-being of residents.

The short survey can be accessed through the health department's website [www.hancockpublichealth.com](http://www.hancockpublichealth.com) or through Hancock Public Health's Facebook page. The direct link to the survey is [www.surveymonkey.com/r/Hancock\\_NutritionPhysicalActivitySurvey](http://www.surveymonkey.com/r/Hancock_NutritionPhysicalActivitySurvey)
