

GREEN CLEANING SOLUTIONS

Many household cleaning chemicals and solutions can be harmful to your family and the environment. The following is a list of environmentally friendly alternatives to several common household cleaning products.

<u>PRODUCT</u>	<u>ALTERNATIVE</u>
Air Freshener	Baking Soda, Lemon Juice & Hot Water
Tarnish Remover	Aluminum Foil, Baking Soda, Salt & Water
Carpet Fresh	Cornstarch & Ground Spice
Drain Cleaner	Baking Soda & Lemon Juice
Window Cleaner	Vinegar & Warm Water
Rust Remover	Lemon Juice & Salt paste
Gold Cleaner	Toothpaste

Together we can keep Findlay and Hancock County a beautiful place to live and work within.

Did you know. . .

Some litter is biodegradable. It eventually breaks down to its natural form and becomes part of the environment in correct conditions.

How long can this take?

- A Piece of Paper – 4 weeks
- Banana Peels – 5 weeks
- Plastic Bag – 30 years
- Aluminum Beverage Can – 500 years
- Glass Jar – NEVER

As Findlay and Hancock County continues to grow and develop, it's important that we as citizens be responsible about what is sent to our landfill. It's important to our environment and future generations that what we throw away is truly trash and that recyclable materials are diverted from the waste stream.

It is our goal to provide environmental programs and opportunities that positively impact the Hancock County community, and to enhance the attitudes and actions of our citizens regarding the proper disposal of waste.

RECYCLING MADE EASY

For the convenience of many Hancock County Residents we have Recycling Units located throughout the county that serve as a convenient drop off locations for household recyclables. To get a current schedule and complete listing of where these locations are throughout the county visit the website at www.HancockEnvironment.com or simply follow the Hancock County Solid Waste Management District on Facebook for updates, details and event information.
