TEMPORARY FOOD OPERATION REQUIREMENTS

Obtaining a Temporary Food Operation License

1

A temporary food operation license must be obtained for any event where foods are being prepared or served for a charge or required donation.

A temporary event is an event that operates over a period of 5 days or less. If an event spans a period longer than 5 days, a separate license must be obtained for each 5-day period.

Only 10 temporary licenses are permitted to be taken out by one person or group per year.

2

To obtain a temporary food operation license, the attached application must be completed and submitted with the fee listed below to the Hancock County Health Department at least ten (10) days prior to the planned event.

TEMPORARY FOOD OPERATION FEE

\$40.00 Per Day

3

The application outlines information that is necessary for obtaining the license. Listed below is a listing of some of the information necessary for completing the application.

-  A diagram of the layout of the temporary location
-  A list of foods served. The source for each food must also be listed.
-  Equipment used to keep foods hot and cold.
-  Water source and how hot water will be provided.
-  Setups used for dishwashing and handwashing.

CRITICAL REQUIREMENTS

APPROVED SOURCES

All foods must be obtained from approved sources

PREPARATION

All foods **MUST** be prepared at the licensed temporary location or in a licensed food operation.

Foods **CANNOT** be prepared in the home and transported to the site.

Home-canned foods **CANNOT** be used as ingredients in foods or sold at the temporary location.

HOT HOLDING

Hot foods must be held at **135° F** or higher at all times. The following items may be used for hot holding of foods.

COLD HOLDING

Cold foods must be held at **41° F** or colder at all times. The following items may be used for cold holding of foods.

Ice chests must have a sufficient amount of ice to keep all parts of the food at 41°F or less.

Store raw meats separate from ready to eat foods to prevent cross contamination.

Refrigerators

Ice Chests

THERMOMETER

A proper thermometer (dial, digital, etc.) must be provided for checking cooking, hot holding, cold holding, and storage temperatures. Any thermometer used must contain a range of 0° - 220° F.

DISHWASHING

Proper dishwashing of utensils must occur through the use of a three (3) bin sink system. This may be accomplished in several ways.

Using an actual three-bin sink

OR

Using a three bucket or dishpan setup

Proper Three-Compartment Sink Setup

 <p>WASH Dishwash Liquid</p>	 <p>RINSE Clear Water</p>	<p>SANITIZE</p>  <p>Bleach Quaternary Tablets</p>
--	---	---

SANITIZER

A proper sanitizer must be used in the 3-bin sink setup and a proper test kit must be used to test the sanitizer level.

SANITIZERS

Bleach

Quaternary Tablets

Bleach = Chlorine Test Kit
Concentration: 50 - 100 ppm

Quaternary Tablets = Quaternary Test Kit
Concentration: 200 ppm

T

HANDWASHING

Handwashing facilities must be provided to ensure all persons working at the temporary location have the ability to wash hands frequently. Acceptable hand washing facilities:

Handwash Sink with Hot & Cold Water

Coffee Urn for Hot Water and Bucket underneath for water collection

Both of These Options Require Soap & Disposable Towels

BARRIERS

Barriers must be used when handling **READY-TO-EAT** foods. Examples of acceptable barriers include:

HAIR RESTRAINTS

Hair Restraints must be worn when preparing and serving foods. Acceptable hair restraints include:

STORAGE

Ensure all food storage is up and off the ground and that all foods are kept covered.

Use Crates, Tables, Etc. to elevate food and food equipment

Use Foil, Plastic Wrap or similar coverings for foods

FOOD HANDLING

Ensure the following are also adhered to when preparing, handling and serving foods:

Do not smoke. Smoking is not permitted in any area where foods are prepared, handled, stored, and served.

Do not prepare, handle or serve foods with any open wounds or burns on the hands, arms, or face.

Do not prepare, handle or serve foods with a cold or any other contagious illness. Never serve foods with symptoms of diarrhea or vomiting.

Do not handle the food-contact portions of dishes, glasses, and flatware directly with hands. Either handle the non-food contact areas of these items or handle these items with gloved hands.

WASTEWATER DISPOSAL

Ensure all wastewater from handwashing, dishwashing, and cleaning procedures is properly disposed of in a sanitary sewer system or in a watertight container until proper disposal can be achieved.

Toilet

GARBAGE DISPOSAL

All garbage and refuse must be stored in cleanable containers with tight-fitting lids.

Garbage and refuse are not permitted to accumulate on the ground.

These measures are to aid in the control of insects and rodents.

Outdoor Events

The food prep area and food storage should be protected from the elements by a roof or covering. The local fire department should be consulted regarding cooking under any covering or roof.

The flooring of the area needs to be either concrete, asphalt, or non-absorbent, cleanable mats to control dust and mud.

Person-In-Charge

A Person-In-Charge must be present at the Temporary Food Service at all times with knowledge of proper and safe food handling practices.

Food Employee Health

If a food employee is ill or a family member has been diagnosed with a food-borne illness then they are not allowed to handle food.

The Person-In-Charge is responsible in making sure ALL employees read and sign the Temporary Food Employee Health Policy. The completed form must be kept at the licensed location for review during the inspection.

TEMPORARY FOOD EMPLOYEE HEALTH POLICY

PURPOSE

The purpose of the Food Employee Illness Reporting Policy is to ensure that all food workers notify the “person-in-charge” (PIC) when you experience any of the conditions listed so that appropriate steps are taken to preclude transmission of foodborne illness or communicable diseases.

POLICY

All food workers shall report if they are experiencing any of the following symptoms to the PIC:

☆ **COVID-19 Symptoms including fever, chills, cough, shortness of breath, difficulty breathing, fatigue, muscle or body aches, headache, new loss of taste or smell, sore throat, congestion or runny nose, nausea or vomiting, diarrhea**

☆ Diarrhea

☆ Fever [Especially if accompanied by Sore Throat]

☆ Vomiting

☆ Jaundice

☆ Infected Cuts, Boils or Lesions [regardless of size] containing pus on fingers, hands or any exposed body part

☆ Any acute Gastrointestinal Symptoms

Food employees should also notify their PIC whenever diagnosed by a healthcare provider as being ill with any of the following diseases that can be transmitted through food or person-to-person by casual contact:

- | | |
|----------------------------|--------------------|
| ➤ Campylobacter | ➤ Norovirus |
| ➤ Cryptosporidium | ➤ Salmonella spp. |
| ➤ Cyclospora | ➤ Salmonella Typhi |
| ➤ Entamoeba Histolytica | ➤ Shigella |
| ➤ Escherichia Coli O157:H7 | ➤ Vibrio Cholerae |
| ➤ Giardia | ➤ Yersinia |
| ➤ Hepatitis A | ➤ COVID-19 |

In addition to the above conditions, food employees shall notify their PIC if they have been exposed to the following high-risk conditions:

- Exposure to or suspicion of causing any confirmed outbreak involving the above illnesses.
- A member of their household is diagnosed with any of the above illnesses.
- A member of their household is attending or working in a setting that is experiencing a confirmed outbreak of the above illnesses.

FOOD EMPLOYEE RESPONSIBILITY

All food workers shall follow the reporting requirements specified above involving symptoms, diagnosis and high-risk conditions specified. All food workers subject to the required work restrictions or exclusions that are imposed upon them as specified in Ohio law, the regulatory authority or PIC, shall comply with these requirements as well as follow good hygienic practices at all times.

PIC [PERSON-IN-CHARGE] RESPONSIBILITY

The PIC shall take appropriate action as specified in the Ohio Uniform Food Safety Code 3717-1-02.1 (D) to exclude, restrict and/or monitor food employees who have reported any of the aforementioned conditions.

The PIC must exclude employees from the food operation until diarrhea or other symptoms have ceased and 2 consecutive stool samples are negative for the following (**exceptions are noted in brackets for specific agents**):

- ☒ Salmonella spp.
- ☒ Shigella
- ☒ Escherichia Coli 0157:H7
- ☒ Campylobacter
- ☒ Vibrio Cholera
- ☒ Cryptosporidium [3 Negative Stool Samples]
- ☒ Giardia [3 Negative Stool Samples]
- ☒ Yersinia
- ☒ Hepatitis A [10 days after initial symptoms]
- ☒ Cyclospora [After diarrhea has ceased and antimicrobial therapy has commenced]
- ☒ COVID-19 [After released from self-quarantine or self-isolation per current Ohio Department of Health guidelines]

The PIC shall ensure these actions are followed and only release the ill food worker once evidence, as specified in the food code, is presented demonstrating the person is free of the disease causing agent or the condition has otherwise resolved.

The PIC shall cooperate with the regulatory authority during all aspects of an outbreak investigation and adhere to all recommendations provided to stop the outbreak from continuing. The PIC will ensure that all food workers review the questionnaire and sign the form acknowledging their awareness of this policy.
