

Reduce Reuse Recycle

Plastic	Original Products	Recycled Products
 PETE	POLYETHYNE Such as water, pop, juice, mouthwash, corn oil & salad dressing bottles, peanut butter jars	Soft drink or household cleanser bottles, carpet, paint brushes, scouring pads, surfboards, liquid soap bottles, insulation for clothing & sleeping bags
 HDPE	HIGH DENSITY POLYETHYLENE Such as laundry detergent bottles, milk, water, juice, bleach, vinegar bottles, some dairy tubs	Soft drink bottle base cups, detergent and bleach bottles, trash bags, trash cans, recycling bins, traffic barrier cones, plastic lumber, flying disks, pails and fly swatters
 V	POLYVINYL CHLORIDE Such as liquid dish soap bottles, plastic food wraps, olive oil bottles	Floor mats, pipes, hoses, and mud flaps
 PP	POLYPROPYLENE Such as deli containers, medicine bottles, cosmetic bottles. Litter Landing takes CLEAR ONLY.	Brooms, snow brushes, paint buckets, video cassette storage cases, fast food trays, lawn mower wheels, automobile battery parts, and ice scrapers.
 OTHER	ALL OTHERS & MIXED RESINS Such as catsup and syrup bottles	Although the recycling of these plastics is currently limited, some products made from polycarbonate and ABS are being recycled into pens, ice scrapers, snow brushes, street signs and concrete supports.
LITTER LANDING DOES <u>NOT</u> ACCEPT THE FOLLOWING ITEMS		
 LDPE	LOW DENSITY POLYETHYLENE Such as plastic bags, wrappers, grocery bags, dry cleaning bags, some mustard and yogurt containers	Garbage can liners, grocery, litter and convention bags, plastic lumber and lawn furniture
 PS	POLYSTYRENE Such as Dixie party cups, foam cups, egg cartons, fast food containers, yogurt cups, cup lids	Video cassettes, flower pots, trash cans, food service trays, building insulation, and desk top accessories like letter openers, pencil sharpeners and rulers, etc.

BUY RECYCLED

Become familiar with the recycling logo and its three chasing arrows.

The arrows mean that recycling is continual process: *collecting* materials that otherwise would be thrown away, *manufacturing* new products using those materials and *purchasing* the new products.

CLOSING THE LOOP

Recycling is not complete until the materials collected are turned into new products and those products are purchased. This is known as "closing the loop".

For recycling to succeed in Ohio, Ohioans must let manufacturers know that they want to buy recycled products.

- ✦ When shopping, read labels for more than just nutritional content – look for recycled-content packaging as well.
- ✦ Purchase recycled content, home & office supplies and use recycled-content paper whenever possible.
- ✦ If a product does not contain recycled materials: call or write the manufacturer and encourage them to use recycled materials.
- ✦ Due to changing market trends that are beyond our control, we are subject to add or delete the collection of specific household recyclable products.

If not recycled, some litter is biodegradable – it eventually breaks down to its natural form and becomes part of the environment.

How long might biodegradation take??

Aluminum can – 500 years

Plastic bag – 30+ years

Banana peel – 5 weeks ~ Glass jar – NEVER
It may take even longer when placed in a landfill as it doesn't have all the elements needed to biodegrade.
